## INTERNSHIPS

**SDE Intern, Jodo** **Jul 2026 - Dec 2026**

- Built backend APIs in **Django** for the **credit pull** workflow, integrating **Experian** (credit reports) and **Surepass** (identity/verification) to fetch and process customer data.
- Implemented **retry and failure-handling logic** for third-party API calls, so timeouts and transient errors dont break or duplicate credit pull requests.
- Wrote **unit and integration tests** for the API and integration layers, covering success, failure, and retry paths.
- Shipped the credit pull feature to **production**, working with [product/frontend/QA] on rollout.

**Full Stack Web Developer , Zerocostwater** **Sep 2025 - Sep 2025**

- Built an automated workflow system using **custom APIs and webhooks** across lead capture, CRM, and payments, reducing manual operations by **60%**.
- Optimized workflow triggers and execution paths for **35% faster** automation performance.

**Full Stack Web Developer, Slash Experiences** **May 2025 - Jul 2025**

- **Led** a **6-member team** to build a **scalable platform** using **React** and **Supabase**, serving **1K+ users** with **99.9% uptime**.
- **Built** the **booking flow** and **Razorpay integration** from scratch, improving **payment success rate by 35%** and cutting drop-offs by **20%**.
- **Resolved** complex logic and responsiveness issues, achieving **25% faster load times** and **smooth cross-device UX**.
- **Designed** a personalized **Profile UI** and **social features** (Connect, Viewed, Liked, History), boosting **user engagement by 20%**.

## PROJECTS

**Vibe Check - Python, FastAPI, scikit-learn, React** **Sep 2026 - Oct 2026**

Built a live NLP moderation platform that detects toxic messages and gives user-level insights through a FastAPI backend.

**RepoLens - React, Node.js, GitHub API** **Apr 2026 - Apr 2026**

Built a developer analytics tool covering commit trends, contributor leaderboards, language breakdown, and repo health scores. 6 GitHub stars.

**AI Credit Risk - Python, FastAPI, scikit-learn, React** **Mar 2026 - Mar 2026**

Built an end-to-end credit risk pipeline with a Random Forest model (AUC 0.80) served via FastAPI. Added Monte Carlo simulation and Gemini-generated summaries on a React dashboard.

## POSITION OF RESPONSIBILITY

**Athletics Captain - Bits Hyderabad** **Aug 2025 - Apr 2026**

Led 40-member team — medal tally +20%, female participation +30%; structured semester-wise training programs; managed 100+ participants across InterBITS and Arena competitions.
